Reasons for Allowance

1. Claims 1-18 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claims invention of a system and method for merging two rulesets provided in rule-based systems associated with originating applications. The merging process requires translating the rulesets into a common core representation capable of being implemented in any logic program rule engine provided in a rule-based application.

The closest prior art (Clendinning et al, U.S. Pub 2002/0107861) provides a system and method for collecting, associating, normalizing and presenting product vendor information on a distributed network. While Clendinning translates information into a common database, such database is not capable of being implemented in any logic program rule engine provided in a rule-based application since the knowledge of the rule is absent from Clendinning's common database.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
